

TERRITORY OF AMERICAN SAMOA
OFFICE OF THE GOVERNOR
FAGATOGO 96799

A. P. LUTALI
GOVERNOR
ENI F. HUNKIN, JR.
LIEUTENANT GOVERNOR

(684) 633-4116

EXECUTIVE ORDER NO. 05-1986

WHEREAS, there exists an energy emergency which threatens to disrupt the social order and imperil the public health and safety of the residents of American Samoa; and

WHEREAS, electric power rationing has not been sufficient to provide needed repairs to ASPA's generating capacity, including the turbine heat recovery system at Tafuna; and

WHEREAS, reliable electric power cannot be provided by existing ASPA power plants; and

WHEREAS, without reliable electric power, the economic and social organization of the Territory will be crippled.

NOW, THEREFORE, pursuant to 15.0501 ASCA, an energy emergency is hereby declared. The ASPA Board of Directors is hereby authorized to take necessary and immediate action, by emergency rule or otherwise, to promptly procure self-contained, prime power generators sufficient to meet and exceed peak power demands through January 1987, and take whatever reasonable actions are necessary to repair, trade, sell, or dispose of current power plant equipment and parts.

FURTHER, the Board is authorized to adopt all necessary procedures, including reductions in work force, contract terminations, short-term contracts, overtime, disciplinary actions, emergency procurement, rationing schedules, maintenance and operational contracts, termination of non-critical power service, and restricting new services, to promptly ensure existing ratepayers receive reliable electric power.

All executive agencies, departments, and offices shall fully cooperate with ASPA during this emergency.

DATED: 6/4/86

A. P. Lutali
